

WE ARE HIRING

Surerus Murphy Joint Venture is supporting TC Energy's Leming Lake Program. This project will consist of the construction and installation of approximately 17 km of a 20-inch diameter pipeline (Field Lake Section) and 18 km of a 20-inch diameter pipeline (Sand Section). Mainline construction will begin in November 2025 and is anticipated to reach peak construction activity in January 2026, with a tentative completion in March 2026. All employment opportunities below will be project-based near Lac La Biche and Bonnyville, Alberta.
